

How Many Vulnerabilities? And Other Wrong Questions

David Mortman
C3, LLC/Securosis, L.L.C.

How Many
Vulnerabilities?

Alternately

How Many Patches?

Why It Doesn't Matter

The Real Question:

What's Your Process For Dealing With Vulnerabilities?

Or More Broadly:

What's Your Software
Assurance Practice
Like?

Which Is More
Secure?

Mac? Win? Linux?

Firefox? IE?

Oracle? MS? IBM?

The Real Question:

Which Product Can I
Best Manage?

Is It XYZ Regulation
Compliant?

Almost Right...

How Does It Help Me
Become/Stay
Compliant?

How Do I Configure It
To Comply With The
Regulation?

Do You Have A SAS-
70?

@CSOAndy: I can
SAS-70 This Pencil...

Demand To See The Report

Questions I Don't Hear Enough

What Are You Trying
To Do?

What's Your Goal?

What's The Business Requirement?
