- Session specific feedback through our mobile site m.sector.ca
- Alternatively, you can email your thoughts to feedback@sector.ca
Keynote: Edward Snowden

Defense Against the Dark Arts:
Examining, Fixing and Fighting for our Cyber Defenses

Edward Snowden is a former intelligence officer who served the CIA, NSA, and DIA for nearly a decade as a subject matter expert on technology and cybersecurity. In 2013, he revealed that the NSA was seizing the private records of billions of individuals who had not been suspected of any wrongdoing, resulting in the most significant reforms to US surveillance policy since 1978.

He has received awards for courage, integrity, and public service, and was named the top global thinker of 2013 by Foreign Policy magazine. Today, he works on methods of enforcing human rights through the application and development of new technologies. He joined the board of Freedom of the Press Foundation in February 2014.
Keynote Moderator: Dr. Michael Geist

Defense Against the Dark Arts: Examining, Fixing and Fighting for our Cyber Defenses

Dr. Michael Geist is a law professor at the University of Ottawa where he holds the Canada Research Chair in Internet and E-commerce Law. He has obtained a Bachelor of Laws (LL.B.) degree from Osgoode Hall Law School in Toronto, Master of Laws (LL.M.) degrees from Cambridge University in the UK and Columbia Law School in New York, and a Doctorate in Law (J.S.D.) from Columbia Law School. Dr. Geist is the editor of many books including Law, Privacy and Surveillance in Canada in the Post-Snowden Era (2015, University of Ottawa Press), The Copyright Pentalogy: How the Supreme Court of Canada Shook the Foundations of Canadian Copyright Law (2013, University of Ottawa Press), From “Radical Extremism” to “Balanced Copyright”: Canadian Copyright and the Digital Agenda (2010, Irwin Law) and In the Public Interest: The Future of Canadian Copyright Law (2005, Irwin Law). He is also the editor of several monthly technology law publications, and the author of a popular blog on Internet and intellectual property law issues.
